

AMENDMENT TO THE SPECIFICATION

1. Please add CROSS REFERENCE TO RELATED APPLICATIONS before Page 1, Line 5 of the present application as follows:

CROSS REFERENCE TO RELATED APPLICATIONS

This application is a U.S. National Application of International Application PCT Application No. PCT/KR2005/000810 filed on March 21, 2005, which claims the benefit of priority from Korean Patent Application No. 10-2004-0020744 filed on March 26, 2004. The disclosures of International Application PCT Application No. PCT/KR2005/000810 and Korean Patent Application No. 10-2004-0020744 are incorporated herein by reference.

2. Applicant herewith adds a following paragraph after Page 10, Line 1, "Mode for Invention", to correct faulty English set forth in the English translation of the PCT publication and in compliance with 37 CFR 1.52. No new matter is presented.

As used in this application, the term "community", unless it is specifically limited, is intended to refer to a "web-based user interface" and/or a "computer system" or "component."
The web-based user interface accepts input and provides output by generating web pages which are transported via the Internet and viewed by the user using a web browser program. The terms "component" and "system" are intended to refer to a computer-related entity, either hardware, a combination of hardware and software, software, or software in execution. Further, as used in

Application of: YANG, Zoo II
Serial No.: Not yet known
Preliminary Amendment

this application, the term “link program,” unless it is specifically limited, is intended to refer to a program linked from a first website providing users with community user interface. A link provided by the community user interface connects the users, who select the link, to the “link program” stored in a second website or in a contents server of the first website to which the community belongs.
